## DIE & DSP Templates

Use these templates to complete your projects as you die-cut items. The instructions and the supply chart for each project will reference the die number in the images below.

### PAPER TAGS DIES

### PATTERN OF FRIENDSHIP DIE

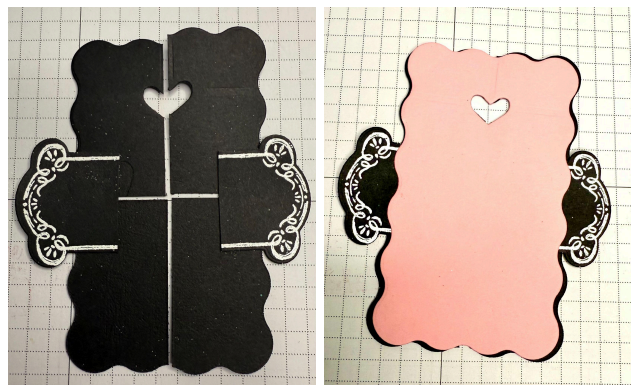

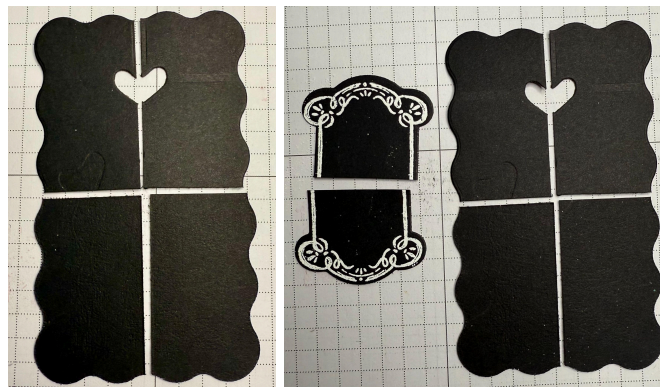

## Step by Step Card Instructions:

### Background Technique: Faux Plaid

1. Die cut the **Pattern of Friendship background die** horizontally across your Coastal Cabana background layer.
2. Rotate the paper 90° and die cut again vertically to create a **plaid** effect.
3. Lightly distress the edges with a bone folder for added texture.
4. Center this piece on your card base using **dimensionals**.

### Building the Tag Focal Point

1. Die cut the following pieces:
  - **Pretty in Pink tag** using **Die 1** — save the small heart that cuts out with it.
  - **Basic Black tag** using **Die 1**.
  - **Stamped tag** from Basic White using **Die 2** with Daffodil Delight ink.
  - **Small Basic Black tag** using **Die 5**, stamped in VersaMark and heat embossed with WOW White embossing powder.
2. Cut the **embossed Basic Black tag (Die 5)** in **half vertically** (along the shorter edge).
3. Cut the **full Basic Black tag (Die 1)** into **quarters** by cutting it in half **horizontally and vertically**.
4. Assemble the black border:
  - Position the four **quartered pieces** behind the **Pretty in Pink tag (Die 1)** so that they peek out with a slight gap, forming a shadow frame.
  - Use the two **embossed border halves (from Die 5)** to anchor the sides (left and right), aligning so that just the curly edge peeks out.

5. Create a ribbon bow:
  - Thread the **Black & Very Vanilla Checked Ribbon** through the **heart opening** at the top of the tag like a wrapped package and tie a bow.
6. Layer the **Sunshine & Laughter stamped tag (Die 2)** onto the front of the Pretty in Pink tag with **dimensionals**.
7. Add the **fussy-cut "YOUR DAY"** in Pretty in Pink on top of the stamped tag using glue or mini dimensionals.
8. Attach the saved **Pretty in Pink heart** with a **mini dimensional** to finish the tag focal point.

## Finishing Touches

- Adhere the complete tag focal piece to the front of your card using **dimensionals**.
- Add **24/26 In Color Shimmer Gems** for a pop of sparkle.
- Stamp the back of your card with: **"Consider this a Paper Hug"** 📧
