Miscellaneous: Stampin' Dimensionals (104430); Multipurpose Glue (110755); Barely Blush Bordered Ribbon (167550); Pearlized Faceted Circles (166978)

instructions ♥

1. Stamp the Flower Fair background on a 4" x 5-1/4" piece of Basic White using Tuxedo Black Memento Ink.
2. Color the outer edges of the flowers using a mix of Stampin' Blends and blending brushes. You do not need to color every flower since the center will be covered. Add a little color with Peaceful Pine and Golden Glow, using Blending Brushes around the flowers and leaves. Add a little Wink of Stella for sparkle.
3. Tie a bow with the Barely Blush bordered ribbon around the middle of the background layer, with the bow on the left side.
4. Adhere the finished background panel to a Basic Black card base.
5. Emboss a piece of Basic Black with the Exposed Brick 3D Embossing Folder.
6. Layer the embossed Basic Black piece onto Barely Blush and then Peaceful Pine cardstock.
7. Stamp the large scalloped dotted image in Barely Blush and cut it out with the coordinating die.
8. Die-cut the large, scalloped frame from both Basic Black and Basic White, and save the white center oval for the greeting.
9. Die-cut the small floral pieces from Crisp Cantaloupe and Barely Blush. Die cut two large leaf clusters and one small leaf cluster from Peaceful Pine. Die cut the dragonfly body from Basic Black and the wings from Barely Blush.
10. Stamp your greeting on the saved white oval. Add it to the focal image with dimensionals, then layer on the scalloped piece, floral die cuts, leaf clusters, and dragonfly as shown. Add Pearlized Faceted Circles to the centers of the flowers
11. Attach the completed focal image to the layered embossed panel, then adhere that piece to the front of the card with dimensionals.
12. Add a white layer to the inside of the card and stamp a greeting of your choice.
